

# WORLDWIDE TERMINALS

*At the Port of Fernandina*

## Location:

850529 US 17, Yulee, Fl. 32097

There is a small sign for the complex called Alberdi Industrial Park, with a Worldwide Terminals sign as well. You are going to WH #1 within the complex for this job, which is in front and to the right as the truck enters the complex.

## Hours of Operation:

This facility operates during the hours of 0700 – 1200 and 1300 – 1600 with a hard truck cut off at 1530

## Handling Out Planning

- Shippers must send an estimated schedule of what is expected to be picked up for the following week to the below address:

[ctswarehouseops@worldwideterminals.com](mailto:ctswarehouseops@worldwideterminals.com)

**\*\*\* Please note due to high volumes, we will not be able to provide individual loads with different product types. As inventories go down, we will work with shippers to fill trucks once inventory levels reduce but initial orders must be single product for a single truck load \*\*\***

- Once we receive this schedule we will advise relative capacity for that given day and advise how many trucks to send

## Driver Information Required At Pickup

- Drivers will be required to present at pickup a pickup number, destination where the product is going, and the type of cargo
- This will be matched with a BOL, a copy of which will be given to the trucker for his records, WWT will retain a signed copy for our records, and WWT will send these BOLs to the shipper

## Contact Information

Warehouse Phone Number: 904-261-6482
